

The Hobby - chair

- the Horn Hobby Chair

"The best seat in the house"

As any hobbyist will tell you one of the most important things you'll need when sitting for long periods is a correct sitting posture, good support and probably most importantly comfort. We have all seen budget priced chairs which are photographed so beautifully but once you start to look a little deeper the photogenic façade starts to slip. Lack of adequate padding for instance or poor quality padding which starts to disintegrate within a very short period, poor quality components or manufacture are just a few examples. The Horn *HOBBY CHAIR* however, offers something for everyone, because after all we are all individuals with different needs. It features a 3 lever mechanism, this allows for huge precise adjustment, you can change not only the back height and rake position but also the tilt of the main seat, just like a luxury car seat. The Horn *HOBBY CHAIR* offers a sculptured, deep, luxuriously padded seat with a contoured support to fit into your body. It can be quickly raised or lowered to your desired position by means of a gas elevator and to finish off the perfect chair it's available in four home friendly fabrics. The perfect chair to finish off your perfect sewing room.
