The **Gold Edition BL9900** is the exciting new baby from Babylock. With rich, clean lines and an innovative LED light, this machine makes a quality statement. The very powerful motor stitches even the heaviest of fabrics without hesitation.

It is easy to thread, and the Drop In Bobbin allows you to see when bobbin thread is running out. Thread is cut automatically at the end of stitching.

Even the most inexperienced seamstress would find this machine easy to use. Just select a stitch—the **Gold Edition** presets the stitch length, width and tension ... no more fiddling! These settings are easily overridden should you wish. Drop a button into the Buttonhole Foot, and the buttonhole is stitched automatically to fit it!

If quilting is your passion, then the **Gold Edition** is terrific. **Supplied with Walking Foot and Quilting Foot, you can also lower the feed dog for freehand embroidery. The strong silent motor will cope happily with your quilt fabrics.**

With the backing of the Babylock name for quality and efficiency, this machine has all the features to satisfy beginners and experienced alike!
