

JANOME

MC5200

Memory Craft 5200 Computerised

The stylishly designed Memory Craft 5200 provides excellent versatility including a convertible needle plate. With an abundance of unsurpassed features and handy stitch designs, it will ensure that your creative potential is fully realised.

Adding imagination to Precision

MC5200 Computerised Sewing Machine

One Hand Needle Threader

Thread the needle easily without eye strain using the convenient One Hand Needle Threader. The advanced design keeps the lever in place for One Hand Threading. Pull the thread across the threader and watch as it is automatically fed through the eye of the needle.

Fully Automatic Sensor Buttonholes

Drop your button onto the sliding gauge and the foot makes your buttonhole the right size every time. The 10 styles of automatic sensor buttonholes include square, rounded, keyhole, knit, heirloom and welted.

Adjustable Foot Pressure

Adjustable pressure makes it easier to protect sheer and delicate fabrics.

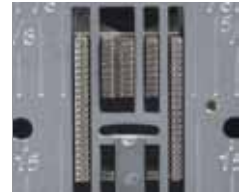

Bobbin Thread Cutter

The bobbin thread cutter lets you cut your bobbin thread with ease after the bobbin is wound.

Bright Dual Lighting

Lights are positioned at the base and above the workspace table for better viewing and less eye strain.

Superior Feed System (SFS)

Even at the highest speeds, a seven-piece feed dog supports fabric evenly on all sides to give you great results on a regular basis.

Auto-Tension System

The automatic thread tension will help you achieve perfect stitch consistency even over fabrics that are of different thicknesses. A very convenient indicator lamp lights up when the Auto-Tension System is in use.

Variable Speed Control

Pick up the pace on straight stitches and take it easy on the curves. The Variable Speed Control lets you adjust the sewing speed to your preference.

Top-Loading Full Rotary Hook System

This quiet rotary system is jam-proof and hassle free, and the clear bobbin cover makes it easy to check how much bobbin thread is still remaining.

Create and Store Your Own Patterns

To make the most out of your sewing ideas, the Memory Craft 5200 is packed with a total of over 580 stitches and a wide variety of useful editing features.

Swing-Open Face Plate for Easy Cleaning

Removing lint is so easy with the convenient Swing-Open Face Plate.

Adjust the length and width, elongate and mirror stitches and then combine into patterns.

Five Memory Banks let you store your combined patterns for convenient recall with the simple press of a button.

Accessories

- Overcasting foot
- Blind Hem Foot
- Satin Stitch Foot
- Hemmer Foot
- Cording Foot
- Zigzag Foot
- Zipper foot
- Overedge Foot
- Button Sewing Foot
- Buttonhole Foot
- Darning Foot

Automatic Plate Converter

Selecting straight stitch 1, 2 and 3 automatically reduces the size of the needle hole to give consistent sewing results. This unique design feature makes it easy to switch between straight and zig zag stitches without switching the needle plate, especially for thin fabrics. Innovative engineering gives you a better way to produce beautiful sewing designs.
