

The SUPERIOR

- our biggest & best, now even better!

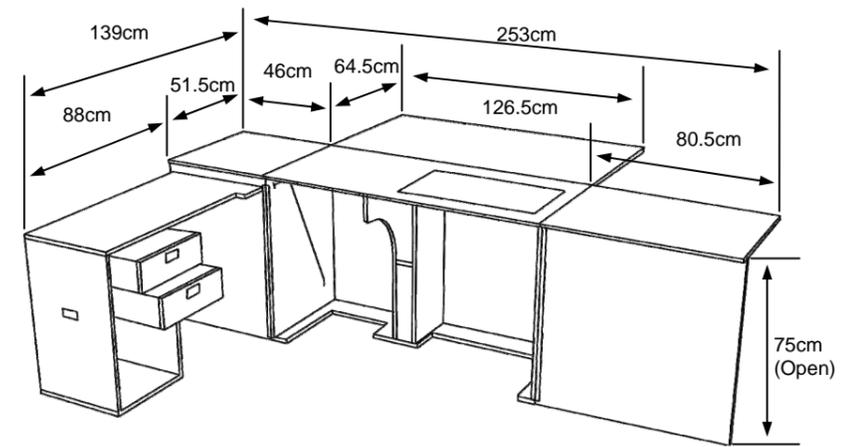

The SUPERIOR - Closed
From its large proportions when opened, it has the ability to close down dramatically

Now fitted with a cable port to the back of the cabinet for improved cable management

A view from the back - a huge well supported gate legged back work area with plenty of legroom

Go Electric!
You can have an electric lifter fitted to this model
(See page 37 for more information)

CLOSED - WIDE 126.5cm (50") DEEP 56cm inc. drop leaf back (22") HIGH 76cm (29 3/4")

The SUPERIOR is shown below fully expanded. This clever design allows you to relocate the pull out caddy onto the door by means of keyhole connectors thus giving even greater access & leg room

Huge seating area!

Fitted with our 'inset' design where the inset sits inside the aperture on a ledge thus giving an even flusher, smoother, sturdier surface from table top to machine arm.... You'll love it!

- Fitted with our Maxi-lifter opening (type 1952) which is capable of taking virtually all domestic sewing machines on the market old or new!
- This model arrives fitted with our 3 step push down release air-lift mechanism which means a quick push down moves your machine from storage to flatbed to free-arm positions but this unit also has the option of being fitted with our electric lifter for an extra cost.
- A versatile caddy system which glides out easily and can be positioned for either close-in sewing/ embroidery or quickly expanded to a more spacious operating set up.
- A huge work area at the back of the machine which prevents the needle drag that can happen with large projects. Lifts up easily when needed and down when not (so it doesn't have to be open all the time). It has a very sturdy gate leg design with Quilters/ Patchworkers in mind but is ideal for all sewing projects.
- Stores both a sewing machine and an overlocker or maybe a second smaller portable workshop class machine.
- Hides both your machines away in a beautiful cabinet that is lockable with a key. No one would ever know.
- One acrylic flatbed inset plate cut to fit your sewing machine is included with this model.
- Attractive soft formed edging finish to the tops.
- Arrives fully assembled.

The pull-out caddy in the closed position

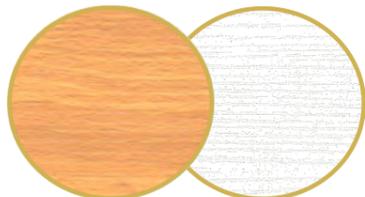

The pull-out caddy in a partially open position so you can see how the clever table idea rises up into position

Fitted with our Horn Maxi air-lifter! (Type 1952)
Ideal for the new extra large sewing machines - such as the Pfaff Icon, Bernina 700 & 800 series, Brother V series, Janome Horizon Range and Husqvarna Epic's amongst others but its not just for larger machines its also ideal for all normal sized domestic sewing machines too!
(Take a look at page 36 to see how our air-lift works)

Colour Chart

Beech, White

MODEL 2042 Price includes a 1952 flatbed inset (The Cutting mat shown is an optional extra - see page 29)

PLEASE NOTE: Due to its size and weight we regret that this cabinet is too large to be taken up an internal staircase by our driver.
