Memory Craft 550E

The MC550E dedicated embroidery only machine has one of the industry's largest work spaces!

There are 180 built-in embroidery designs, 6 fonts and 2 and 3 letter monogramming with four hoops included! The new RE36b is an exclusive hoop to the 550E and has an embroidery field of 200 x 360mm (7.9" X 14"). That's huge! We've even added an extra-large table to ensure that your embroidery projects are always properly supported.

The 550E is able to work with varying conditions by simply changing your embroidery sewing speed in the easy to access Settings Menu. Go slower with delicate metallic threads

(400spm) or take it to the max (860spm) when filling in a large stitch intensive area. The machine will automatically stop when it's time to change the thread colour, ready for the automatic thread cutter to snip your threads. Multi-colour designs can be converted to a single colour pattern at the touch of a button.

Additional embroidery designs can easily be imported into the 550E via the USB port. You can create multiple folders to organise and save your designs. Your MC550E can be updated.

It's amazing what you can create with the Memory Craft 550E!

Four hoops are included with the machine:

- RE36b Hoop 200 x 360mm (7.9 x 14.2")
- RE20b Hoop 140 x 200mm (5.5 x 7.9")
- SQ20b Hoop 200 x 200mm (7.9 x 7.9")
- SQ14b Hoop 140 x 140mm (5.5 x 5.5")

Optional

- RE28b Hoop 200 x 280mm (7.9 x 11")
- RE10b Hoop 100 x 40mm (3.9 x 1.6")
- AcuFil Quilting Kit (ASQ18b Hoop) 180 x 180mm (7.2 x 7.2")
- AcuStitch (PC Software)
- Hat Hoop Insert for RE Hoop: Embroider designs on the front panel of hats and caps. (To be used with RE20b Hoop)
- Clothsetter: This gives you perfect placement, which means your designs are never limited to the size of the hoop!
- Spool stands (2 or 5 threads)

We reserve the right to change specifications without notice

For limitless embroidery possibilities optional embroidery design software is available which can convert artwork into stitches and stitches into works of art.

- Adjustable embroidery speed 400-860SPM
